Course literature
Course info

- Grades: From exam (let us know if you want translation to ECTS)

- Exercises, seminars and excursions are mandatory. Let us know before if you can’t come (e.g. sick).

- A course homepage e.g. with ppt slides and other material on our homepage: www.nateko.lu.se.

- Last years course evaluation (on the homepage)

- Follow us on facebook!
Things to do and documents to read:

- Get a key card at the University library (UB)
- Read the student right’s
- Read other information from the student council (SNG)
- Read guidelines and regulations on plagiarism

“Plagiarism is a lack of independence in the design and/or wording of academic work presented by a student compared to the level of independence required by the educational context. Deceitful plagiarism is a lack of independence combined with an intent on the part of the student to present the work of others as his or her own.”
Some final tasks:

- Division into groups!
- Choose a course representative!
