Course Summary for ”Course name and course code” ht/ 2019

Course coordinator: Helena Elvén Eriksson (f.d. Borgqivst)

Teachers in the course: Helena Elvén Eriksson (f.d. Borgqivst) and Zhangzhang Cai
Number of students: 13 (but there are 11 from the year before and some of them were late with submissions). Therefore students registered from 2018 are also included here.

Grade distribution: Fail/Pass

Evaluation

I. Summary of the course evaluation

Number of survey responses: 23, of which is 70% of the students

Short summary of the evaluation responses: In general the students were satisfied to very satisfied with the course (overall score of 4.5, on a scale 1-5). The students were particularly satisfied with motivation and inspiration from the teachers.

II. Comments from the teaching team

Teachers' opinion is that the course went well. Some of the material needed to be updated to reflect developments within the area (new data etc.), and this has partly been done by the teachers, mainly Zhangzhang Cai

III. Evaluation of changes implemented since the last time the course was given

Since the last time we have implemented the changes in the instructions in one of the tasks. We updated the exercise, and inserted more information where students sometimes needed more pedagogic assistance. The students considered this to be helpful. We also developed some of the exercises with new satellite data.

IV. Suggestions for changes to implement before the course is given the next time

The course is fine as it is, but could also be further developed with new, up-to-date exciting data.

2020-05-11, this summary was done by Helena Elvén Eriksso (f.d. Borgqvist)
