

Course Summary for "NGEN12" vt 2019

Course coordinator: Ali Mansourian

Teachers in the course: Lars Harrie, Mahdi Farnaghi, Weiming Hu, Perola Olsson.

Number of students: 16 registered students

Grade distribution: G, VG

Evaluation

I. Summary of the course evaluation

Number of survey responses: 9, of which is 56 % of the students

Short summary of the evaluation responses: In general the students were very satisfied with the course (overall score of 4.1, on a scale 1-5). The students were particularly satisfied with "the aim of the course is achieved", "Workload of the course was fair", "teachers were motivating and inspiring", "receiving enough training", "receiving useful feedback and help on work", and "the practical arrangements of the course". In terms of components they liked very much "UML", "2D Designing DB", "Data Retrieval", "FME", and "Open Source DB". We did not receive any serious complaint or comment on other parts of the course. Some comments suggested that the project instruction needs to be updated.

II. Comments from the teaching team

Teachers' opinion is that the course went well.

III. Evaluation of changes implemented since the last time the course was given

Since the last time we have implemented the changes on UML and Open Source Spatial Database the students considered this to be useful.

IV. Suggestions for changes to implement before the course is given the next time

Before the next time, we update project instructions.

2019-06-14, this summary was done by Ali Mansourian

The summary should be mailed to the director of studies, ulrik.martensson@nateko.lu.se, eva.andersson@nateko.lu.se, for archiving, and published on the course homepage.
