Two books that cover the course content very well are recommended for supplementary reading. Both are available as e-books:

- Biogeochemistry : [An analysis of Global Change, 4th edition William H. Schlesinger, Emily S. Bernhardt, Amsterdam : Elsevier, cop. 2020](#)
- Atm-Bio interaction: [Transport in the Atmosphere-Vegetation Soil Continuum, A.F. Moene & J.C van Dam, Cambridge Univ press. 2014](#)
