Evaluation

Summary of the course evaluation

Number of survey responses: 14, of which is 100 % of the students.

Short summary of the evaluation responses: In general the students were very satisfied with the course (overall score of 4.1, on a scale 0-5). The score is relatively high. The students thought the course aim was reached and that practical exercises were interesting and instructive. They are very happy with the response time and the quality of responses. Few lectures and exercises need to be updated.

Comments from the teaching team

Teachers' opinion is that the course went very well. A good mix of students from different and a pleasant number to teach. The students showed great interest in the subjects taught.

Evaluation of changes implemented since the last time the course was given

The updated exercises in 2019 were fine.

Suggestions for changes to implement before the course is given the next time

New recorded video lectures have been produced and uploaded. Content of some exercises have been updated.

2021-03-25, this summary was done by Ali Mansourian.
