

Course Summary for "Geographical Databases, GISN06" vt 2020

Course coordinator: Zheng Duan

Teachers in the course: Zheng Duan, Mahdi Farnaghi, Zheng Duan, Ali Mansourian, Mahdi Farnaghi, Lars Harrie, Per-Ola Olsson

Number of students: 20 registered students at different study speed as detailed below

- GISN06 50% LU-53803 : 3 students are registered
- GISN06 50% LU-53793 : 5 students are registered
- GISN06 25% LU-53813 : 12 students are registered

Grade distribution: 14 students are passed with G, as detailed below

- GISN06 50% LU-53803 : 3 students are passed with G
- GISN06 50% LU-53793 : 4 students are passed with G
- GISN06 25% LU-53813 : 7 students are passed with G

Evaluation

Summary of the course evaluation

Number of survey responses: 15, of which is 75 % of the students.

In general the students were very satisfied (overall score of 4.2, on a scale 1-5). The students were particularly satisfied with the helpful feedback provided from teachers but suggested that more workload can be added and more up-to-date materials can be added.

Comments from the teaching team

Teachers' opinion is that the course went well, etc, due to fairly well-planned course contents and interactions with students. Zheng Duan thought it is time to update some exercise materials for this course.

Evaluation of changes implemented since the last time the course was given

Since the last time we have not implemented changes in this course due to changes of the course coordinator and teachers and insufficient time for implementing changes.

Suggestions for changes to implement before the course is given the next time

Before the next time, we will update some course contents to align with campus course NGEN12. We will add more details on exercise description and update the exercise materials, and provide students with instructions on how to install the required software.

2020-12-02, this summary was done by Zheng Duan.
