### Evaluation

#### I. Summary of the course evaluation

Number of survey responses: 4, of which is 100 % of the students

*Short summary of the evaluation responses:* Overall positive feedback, workload seemed OK.

#### II. Comments from the teaching team

Switching to online went more or less fine for the lectures; for exercises, however, a face-2-face discussion is easier.

#### III. Evaluation of changes implemented since the last time the course was given

The focus shift from on mathematical derivations to interpretation of mathematical equations seemed to have help to reduce workload and difficulty to follow the course.

#### IV. Suggestions for changes to implement before the course is given the next time

No major changes planned.
