Evaluation

Summary of the course evaluation

Since the number of students participating in the course was too low to ensure anonymity, no regular course evaluation was performed.

Comments from the teaching team

As in earlier courses, it showed that the combination of live zoom sessions and pre-recorded sessions worked fine for lectures and the seminar whereas it was less favourable for the practical exercises which usually mean a lot of interaction between teacher and student.

Evaluation of changes implemented since the last time the course was given n/a

Suggestions for changes to implement before the course is given the next time This was the last time the course was given as the meteorology education at LU will be paused.
