Comments from the teaching team

No reply from the teachers on this matter so far.

Evaluation of changes implemented since the last time the course was given

Since the last time we have implemented the changes on having less extensive lectures by the academic support center, and replaced this with more hands on writing support where student brings their own texts for feedback.

Suggestions for changes to implement before the course is given the next time

We will continue to promote engaged supervision and as equal thesis evaluation/grading as possible, a continuously progressing work towards higher educational quality.
