## Evaluation

### Summary of the course evaluation

Number of survey responses: 8, of which is 58 % of the students

Short summary of the evaluation responses: In general the students were very satisfied with the course (overall score of 4.4, on a scale 1-5). The students were particularly satisfied with interactive web mapping module, which can help them to find job. They suggested if this component could be expanded, and theory parts can be reduced.

### Comments from the teaching team

Teachers' opinion is that the course went well. Some exercises can be improved a bit.

### Evaluation of changes implemented since the last time the course was given

We had updated a majority of the exercises for this year. Students were very happy and satisfied, which is also visible from the overall evaluation result.

### Suggestions for changes to implement before the course is given the next time

We will not make major changes. Maybe improve some exercises and lectures, based on the received comments.
