

Doctoral student allowance

Regulations at the Department of Physical Geography and Ecosystem Science (INES)
2020-02-07

Every PhD student has at their disposal 20 000 SEK for minor running costs during the four years of the PhD programme. The main purpose of the money is conferences, study travels and purchasing literature. Purchase of personal equipment with these funds, such as clothing or shoes, is not allowed. Technical equipment such as computers may only be purchased under exceptional circumstances, and with the written approval of the Director of Studies.

All purchases must be made through the department's purchasing channels (Lupin/Procedo), with Yvonne Kedström acting as a resource person for this task. Compensation for expenses is normally not reimbursed from the PhD allowance for items purchased with their own personal finances. Exceptions could be made on request, e.g. for purchases of literature for conferences.
