

Literature NGEA21 spring 2022

The course book by Stull is available without cost over the internet while the course book by Ahrens and Henson needs to be purchased. Note that it may take time to order the printed version of the Ahrens and Henson book, so if you prefer the printed version, it is a good idea to order or buy it before the course starts.

Book 1:

Meteorology today by Ahrens and Henson.

The newest edition of the book is edition 13:

C. Donald Ahrens and R. Henson (2022): Meteorology Today: An Introduction to Weather, Climate and the Environment, 13th Edition, C. Donald Ahrens. ISBN: 9780357452073, BrooksCole.

Edition 13 should also be available online. If you prefer hardback and cannot find ed 13, ed 11 or 12 are ok alternatives.

Book 2:

Roland Stull (2011): Meteorology for Scientists and Engineers, 3rd Edition Copyright © 2011, 2017. The book is available at the following link:

https://www.eoas.ubc.ca/books/Practical_Meteorology/mse3.html (Links to an external site.)

We may also use some parts of the updated version of Roland Stulls book: Practical Meteorology: An Algebra-based Survey of Atmospheric Science.
